Benefits for the Partner Institutions

- EOSC consolidates **Research Data Management (RDM)** measures such as data stewardship and compliance with the FAIR principles – the EOSC Support Office Austria (SOA) fosters cooperation and implementation

- **Actively contribute to shaping the EOSC** instead of being presented with a final product

- Get access to an extended network and maintain regular contact with SOA partners to **collaborate on project calls** and **acquire third party funding** for your institution

- Join forces in developing and expanding research infrastructures and align strategies

- Get first-hand and up-to-date information concerning Open Science activities from the SOA as the central information hub in Austria
Conditions & steps

The **membership** of the Austrian initiative is **free of charge**

All partners (members) of the Austrian initiative sign the **Memorandum of Understanding** (MoU).
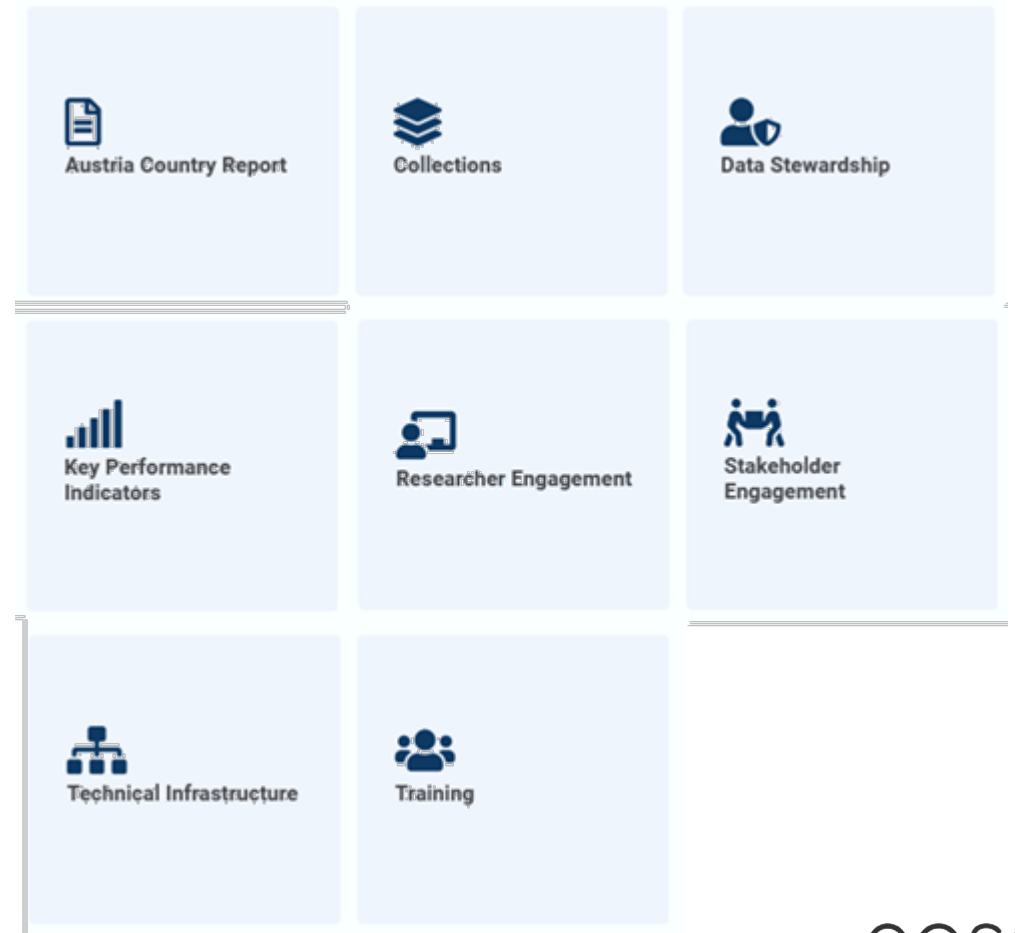

These partners are involved in…
